SUMMARY

Dynamic and detail-oriented BCA graduate with a solid foundation in computer applications, programming, and software development, now expanding expertise in data analytics. Passionate about leveraging data-driven insights to support strategic decision-making and optimize business processes. Proficient in statistical analysis, data visualization, and database querying, with hands-on experience handling large datasets, identifying patterns, and deriving actionable solutions. Adept at problem-solving, analytical thinking, and collaborative teamwork, with a strong commitment to continuous learning and professional growth. Eager to apply analytical skills to real-world challenges and contribute effectively to innovative, data-driven projects in a dynamic business environment.

EXPERIENCE

AI Intern

Luminar TechnoHub

📅 04/2024 📍 Kochi, India

- Studied the basics of AI and ML
- Worked on multiple projects

Project Intern

Mousepoint Innovations

📅 12/2024 - 03/2025 📍 Kochi, India

- Contributed to the development of an AI-powered Legal Advisor, a user-friendly chatbot designed for preliminary legal consultations and automated legal document generation. Engaged in backend development using Python and MySQL, ensuring seamless data processing and retrieval. Assisted in frontend implementation with HTML, CSS, and Bootstrap to create an intuitive and accessible user interface. Focused on improving chatbot functionality, refining database interactions, and enhancing user experience through efficient design and coding practices

EDUCATION

Bachelor's of Computer Application

Ettumanoorappan College

📅 2022 - 2025 📍 Kottayam, India

PROJECTS

AI LEGAL ADVISOR

📍 Kochi, India

I built an AI Legal Advisor, a user-friendly chatbot designed to provide preliminary legal consultations and assist in the automated generation of legal documents. This intelligent system streamlines legal processes by offering accessible guidance and document drafting support. The backend is built using Python and MySQL, ensuring efficient data handling and robust functionality, while the frontend utilizes HTML, CSS, and Bootstrap to create an intuitive and visually appealing user interface.

CLAY POTTERY MANAGEMENT SYSTEM

📍 Kottayam, India

I developed a Clay Pottery Management System, an actively running website designed for the sales and management of clay utensils. This platform streamlines operations for pottery businesses, offering an efficient and user-friendly interface for customers and vendors alike. The front end is crafted using HTML, CSS, and Bootstrap to ensure a visually appealing and intuitive experience, while the backend is powered by PHP and MySQL to enable seamless data management and transaction handling.

CERTIFICATION

Cloud Fundamentals

The course, authorized by Learnkarts and offered through Coursera.

Foundations: Data, Data, Everywhere

Google, course authorized by Google and offered through Coursera.

Data Analytics Job Simulation

Deloitte

STRENGTHS

Data visualization expertise

Proficient in communicating insights with impactful data visuals.

Statistical analysis proficiency

Skilled in uncovering insights through statistical techniques.

Database management skills

Adept at managing databases for optimal data retrieval.

Analytical problem solving

Strong analytical thinking for effective problem solving.
